

Pesticide Notification

West Ottawa Public Schools utilizes an Integrated Pest Management (IPM) approach to control pests. This pest management system utilizes appropriate techniques for preventing and controlling pests which may include the use of chemicals.

As a parent/guardian of a West Ottawa student, you have the right to be notified prior to any application of an insecticide, fungicide or herbicide to the district's buildings and grounds during this school year. If you desire prior notification, please contact:

West Ottawa Public Schools
District Facilities Supervisor
3623 Butternut Dr.
Holland, MI 49424
616.738.6970

Please note that in certain emergencies, such as an infestation of stinging insects, pesticides may be applied without prior notice to prevent injury to students, but you will be notified following any such application.
